Profile Summary

I am Reza; a software craftsman from Iran, Isfahan.

Before high school, I was playing codes, and till now I just become eager to learn and coach others to design and build enterprise solutions and deliver more value to corporations globally. No matter what your type is I always find something in common with you and we can have a great journey together!

Education

Bachelor of Software Engineering

Institute/University: University of Yazd

Yazd, Iran

2013 - 2018

Diploma in Mathematics

Institute/School: Ejei High School (NODET)

Work History

Chapter Lead

RDsysCo (EPFC)

Calgary, Alberta, Canada

May 2022 - December 2023

Tasks and Achievements

- We worked on an ERP system remotely in Calgary from Iran,
- A part of my duties were:
- Team building, Coaching, Collaborating, Planning, Designing solutions, tools, and processes to lead the team to the company goals and values. The project was a scalable, cloud-based (AWS), edge technology ERP system based on microservice architecture and multi-tenancy.

Technical Lead

Intelligent city (PIF)

Yazd, Iran

November 2017 - March 2019

Tasks and Achievements

- leading research and development in cooperation with Yazd University and the Provincial investment fund.
- The project was part of the intelligent city plan.
- The Stack was based on Go, Mongo, Redis, Cordova, etc

Senior Engineer

RDsysCo (EPFC)

Calgary, Alberta, Canada

August 2019 - May 2022

Tasks and Achievements

- We worked on an ERP system remotely in Calgary from Iran,
- Collaborating, developing, and team working on an edge technology platform on the cloud by hypothesis methods and using technical radar was part of the duties to make sure 'WOW' could grow in EPFC, 'WOW' was an ERP platform based on Clojure, React, and AWS services.

CEO

self-employed

Yazd, Iran

August 2017 - March 2019

Tasks and Achievements

- 'Deltagram' was a startup based on brand-new cross-platform solutions and high-performance calculations
